

Curriculum Vitae

MOHTASIM UR RAHMAN

Software Engineer

✉ mohtasimur2003@gmail.com

☎ +88 01783753182

🏠 Uttara, Dhaka-1230, Bangladesh

Skills

C++

Java

C#

.NET Core

PHP

JavaScript

Python

ReactJs

Nest.js

Next.js

TypeScript

HTML & CSS

IoT & Embedded System

Machine Learning

Deep Learning

CAREER OBJECTIVE

Computer Science and Engineering graduate skilled in full-stack web development, Machine Learning, and IoT technologies. Strong problem-solving ability and practical experience gained through multiple hands-on projects. Seeking a software engineering role to apply my technical skills and contribute to innovative solutions in a dynamic team environment.

WORK EXPERIENCE

GoBangla Solutions

Software Engineer | March 2026 - Present

Responsible for developing and maintaining web applications using modern frameworks. Contributing to both frontend and backend development, feature implementation, debugging and system optimization to deliver scalable and efficient software solutions.

ltransition Group

Intern Developer | January 2026 - March 2026

Completed a .NET-focused development internship gaining hands-on experience with ASP.NET technologies, backend development, debugging and collaborative software development practices under professional mentorship.

PROJECTS

Airline Management System

React, NestJS, TypeScript, Node.js, PostgreSQL — A secure, scalable full-stack web system with role-based access.

- Developed a role-based full-stack application with secure JWT authentication.
- Implemented RESTful APIs and integrated them with a dynamic React frontend.
- Designed relational database models using PostgreSQL and ORM.

Inventory Management System (API)

ASP.NET Core, EF, N-Tier Architecture, AutoMapper, SQL Server — Implemented repository pattern and in-app notifications with advanced features beyond CRUD.

- Built a RESTful Inventory Management API using ASP.NET Core.
- Implemented CRUD operations and database integration for product and stock management.
- Designed structured API endpoints with error handling for system integration.

Hospital Management System

HTML, CSS, PHP, JavaScript, MySQL — A complete role-based operational healthcare platform.

- Patient module: appointment booking, history view, doctor selection and profile management.
- Doctors: manage appointments, update records, create prescriptions.
- Admin: complete system control, analytics, reporting and staff management.

Shop Management System

Java, GUI Framework, Swing, MySQL — Inventory, employee and sales management tool.

- Desktop app automating inventory and employee operations.
- Built reporting module for automated sales & performance analytics.
- Designed modular architecture using OOP principles.

Dream Air Line

C#, .NET Framework, MySQL Server — Flight scheduling & ticketing system.

- Developed a complete airline operations tool with ticketing & scheduling.

- Implemented relational database structure ensuring booking integrity.
- Role-based access control for secure admin/travel modules.

Floor Cleaning Robot

ESP32 • Arduino IDE • Motor Drivers • Sensors

- Designed an autonomous floor-cleaning robot using ESP32.
- Integrated L298N drivers for brush & wheel control.
- Obstacle detection using IR and ultrasonic sensors.

IoT + ML Crop Recommendation

IoT Sensors • ML Models • Smart Agriculture

- Built ML model to predict suitable crops using environmental sensor data.
- Optimized features for improved model performance.
- Published research on AI-driven agricultural decision systems.

ACADEMIC QUALIFICATIONS

DEGREE	INSTITUTION	YEAR	RESULT
BSc in Computer Science & Engineering	American International University-Bangladesh (AIUB)	2026	CGPA:3.37
Higher Secondary Certificate	Shahid Buddhijibi Govt. College, Rajshahi	2021	GPA: 5.00
Secondary School Certificate	Gotegari Shaheed Mamun Govt. High School & College	2019	GPA: 5.00

LANGUAGES

English (Fluent), Bangla (Native), Urdu, Hindi

INTERESTS

Problem Solving, AI in Education, Research, IoT & Embedded System, Travelling.
